

White paper Bule Gila Token

By Wayan Sukarno

INTRODUCTION

A few years observing the crypto space made us learn some things. There are different kind of projects out there and only truly decentralized ones will change the world the way it is now. We have a great challenge in front of our eyes, a new era in the making.

We could create a company and launch it or hire some of the best people and get surrounded by them. But then we wont be different than others, we wont be a life inspiration and we would owe something to someone.

We all dreamed once to create something unique, something truly ours and be part of the worldwide switch.

To do so, the project must be driven by the community with passion and inspiration, with a willingness to give before take and to share knowledge with the aim of seeing others grow.

Only then great successes will be archived, only then we can change lives.

THE VALUE OF A MAN
RESIDES IN WHAT HE GIVES

VISION

Bule Gila Token “**BUGIL**” is the vessel and we are all the drivers.

Decentralized platforms give us the seat of the leader or the King’s scepter, but in a democratic way. Power doesn’t land in one hand, but in all hands. It doesn’t belong anymore only to governments, private elites or major business owners.

Now we decide in which world we want to live, how the wealth will be shared, how we will help and be helped without the middleman, without any government leading us. This is the time for our community to rise and stand up for one another.

DEFI space will give us all what a modern society needs. Its technology will make our daily live easier, faster and Worldwide interconnectivity. Together we will decide how to develop it. In order to belong to us, we are the first responsible on the making.

“YOU CAN’T ESCAPE THE RESPONSIBILITY OF TOMORROW BY EVADING TODAY”

WHO WE ARE

It would be incompatible if we were to build a 100% community driven platform and we had already set the team.

As we said, this is your project and it is driven by our community from the very beginning.

Because of this, you will not find professional social media or a professional marketing strategy “yet“, we are still waiting for you to jump in. Send us an email and join this quest to become one of the leading DEFI Ecosystem in the world.
